RULES OF THE GAME

1. The standard length of the rink shall be 46 yards from hack to hack, and shall be laid out according to the annexed diagram.

2. From and in exact alignment with both tees, a line called the centre line, shall be drawn to a point four yards behind each tee; at this point a line shall be drawn at a right angle to the centre line, on which the hack shall be cut. The hack shall not exceed six inches in length, nor shall the inner edge thereof be more than three inches from the centre line, so that all stones shall be delivered with their centre upon the centre line.

3. No important match shall be commenced if the ice be not in a condition fairly to test the curling skill of the competing players. The umpire's decision regarding the condition of the ice shall be final in all cases.

4. All matches must be the majority of shots won, after playing a certain number of heads. In the event of both parties being equal at the conclusion of the match, play shall be continued, under the direction of the umpire by all rinks engaged, for another head, or for such additional number of heads as may be necessary to decide the match.

5. Every rink to be composed of four players a side, each using two stones, and playing one stone alternately with his opponent, and the rotation of players observed in the first head shall not be changed during the match.

6. The two skips opposing each other shall settle by lot, or in any other way they may agree upon, which party shall lead in the first head, after which the winning party shall lead.

7. The skips shall have the exclusive management and direction of the game for their respective parties, and may play last or in any part of the game they please, but are not entitled to change their places when once fixed. When their turn to play comes, they shall each appoint one of their players to act in their places as skip of the game, and must take the position of ordinary players until they have played and returned to the tee-head as skips.

8. Players during the course of each end shall be arranged along the sides, but well off the rink, as their skips may direct; and no party except when sweeping, according to rule, shall go upon the middle of the rink. Skips alone have to stand within the twelve-foot circle: the skip of the party playing to have the choice of place, and must not be obstructed by the other in front of the tee; while behind it, the privilege of both, as regards sweeping, shall be equal.

9. Every player must be ready to play when his turn comes, and shall not take more than a reasonable time to play; should he play a stone belonging to another player, any of the players may stop it while running; but if not stopped till at rest, the stone which should have been played shall be put in its place to the satisfaction of the opposing skip.

10. If a player should play out of turn, the stone so played may be stopped in its course and returned to the player; should the mistake not be discovered until the stone be at rest, or has struck another stone, the opposing skip shall add one to his score, and have the option of allowing the game to proceed, or declaring the end null and void; but if another stone has been played before the mistake has been noticed, the end must be finished as if it had been played properly from the beginning, and such missed stone shall not be played for that end.

11. If any player engaged, or belonging to either of the competing clubs, shall taunt or otherwise interrupt any other player, not of his own party, while preparing to play his stone, so as to disconcert him, one shall be added to the score of the party so interrupted, for each interruption and the play proceed.

12. If in sweeping, or otherwise, a running stone be marred by any of the party to which it belongs, it shall be put off the ice, and the opposing skip shall have option to add one to his score, and allow the game to proceed, or to call the end null and void; but if marred by any of the adverse party, it shall be placed wherever the skip of the party to which it belongs may direct. If marred in course of play after delivery in any other way excepting straws from brooms, the player shall replay the stone. Should any played stone be replaced by any of the players before the head is reckoned, it shall be placed as near as possible to where it lay, to the satisfaction of, or by the skip opposed to the party displacing it. If displaced by any neutral party both skips to agree upon the position to which it is to be returned, and if they fail to agree, the umpire shall decide.

13. The sweeping shall be under the direction and control of the skips. Upon all occasions a stone may be swept from the HOG SCORE nearest the point from which the stone is delivered, and may be swept by the party to which side it belongs until it comes to the SWEEPING SCORE; but all stones when they have passed the sweeping score may be swept by EITHER SKIP ONLY. Skips will have the liberty to sweep behind the tee at all times, except when a player is receiving directions to play from the skip. All sweeping shall be across the rink, and the sweeper must be in front of the stone being swept, and at one side thereof; and no sweepings shall either be moved forward, or left in front of a running stone or a stone "at rest."

14. All stones shall be of circular shape. No stone, including handle, shall be of greater weight than forty-seven and one-half pounds, or of greater circumference than thirty-six inches, or of less height than one-eighth part of its greatest circumference.

15. A stone which fails to pass the hog line shall be removed from the ice, unless it has been prevented from passing by striking another stone lying in play.

16. All stones which have passed the back line shall be removed from the ice.

17. Every stone within or resting upon the outer ring shall be entitled to be counted in the game, and a stone shall not be considered over a line unless it has crossed it and entirely cleared it.

18. No stone or side of a stone shall be changed after a match has begun unless with the consent of the opposing skip. Should a stone happen to be broken during the game, the largest fragment shall be considered in the game for that end, and the player shall be entitled to use another stone or another pair, during the remainder of the game.

19. Should a played stone roll over or stop on its edge, or top, it shall be put off the ice. Should the handle quit the stone in delivery, the player shall be entitled to replay the stone if it is stopped before it reaches the hog score at the end of the rink to which it is being delivered.

20. No measuring of shots allowable previous to the termination of the end. Disputed shots to be determined by the vice-skips; or if they disagree, by the umpire; or, if there is no umpire, by some neutral person chosen by the skips. All measurements to be taken from centre of tee to nearest point of stone, after removing stones interfering.

21. If any of the competing rinks are not ready to begin play at the hour named for a match, one end shall be counted as played for every ten minutes delay; and the opposing rink, if ready to play, shall count one point in the game for each such period of time it is kept waiting.

22. No rink shall be eligible to enter for any competition or match under the jurisdiction of the Association, unless in the first game they have four bona-fide active players. If, however, after starting in any event, any member through sickness, or other unforeseen circumstances, is unable to play, then the following rule to apply.

(a) If the skip be absent, then the third man becomes skip, and the second man plays his own and the third pair of stones.

(b) If the third player be absent, the second man shall play second and third place.

(c) If the second man be absent, the lead shall play both first and second stones.

(d) If the lead be absent, the second player shall play his own as well as the lead stones.

(e) No sweeper shall be allowed for the absentee, and no rink shall continue play with less than three men.

23. After all the stones have been played in each end, the head shall be counted as follows, the side having one or more rocks nearer the centre than any of those of the opposing side shall count one point for each rock nearer such centre point, that is to say, if one skip has three rocks nearer the centre point than the other, and then the other skip has one rock the fourth nearest, then the first skip has three more, the first skip shall only count three because the fourth rock would destroy the others, and so on.

24. The game is scored by ends, the side winning the greatest number of shots in the head counts one point for each shot, and the game is totalled at the completion of the required number of ends, and the side having the greatest number of points wins the game.

25. In connection with competitions where the question is raised as to whether a game is played or defaulted, it shall be understood that all games where one end or more has been played, and for some reason the game stopped, the game shall be considered a played game, and not a default under the rules.

ICE RINKS AND POINTS GAME

1. All District Matches, as well as those played at the Annual Bonspiel or in a Points Competition, must be played on new or virgin ice, or upon neutral ice.

2. Ice for curling shall be deemed new or virgin ice:

(a) When it has not been previously played upon.

(b) When, since last played on, it shall have been sprinkled with water over the entire ice surface, before freezing.

(c) Shaving off nodules or protuberances from the surface of the ice, or the application of any mechanical operations, having for their object the bringing of the ice to a true and correct level, shall not be held as degrading ice otherwise entitled to be called new or virgin ice; but such operations must be carried on under the direction of the umpire.

(d) In no case shall any special preparation of the ice be made, intended or calculated or having for its object to facilitate the making of any particular shot, or to otherwise pervert the ice surface from the true and correct level.

3. While the main object of matches between clubs is to determine their relative skill in the game, it should ever be borne in mind that the ultimate object of curling is to develop a MANLY RECREATION, and to promote goodwill, kindly feeling, and honorable conduct among those who take part in it, and this sentiment should influence both the interpretation and the application of all the rules.

4. Rinks shall be laid out in accordance with the Points Diagrams given for the game herewith. Within the 12-foot circle, a circle 8 feet in diameter shall be drawn around the tee and a centre line or score from the hack to the hog score.

5. Lots shall be drawn for the order of playing; each competitor shall change position one place after each round, thus: The first player to be the last in playing next round, and the second player to be the first at the next, and so on. Each competitor shall use two stones, and play them, the one immediately after the other, and shall not during the competition change the side of a stone, or the stone itself, unless it happens to be broken.

6. Every competitor to play four shots at each of the nine following points of the game, viz.: STRIKING, INWICKING, DRAWING, Guarding, Chap and Lie, Wick and Curl In, Raising, Drawing Through a Port, and Chipping the Winner, according to the following definitions, and each successful shot shall count as hereinafter provided:

(a) STRIKING—A stone placed on the sweeping score, and with its inner edge 2 feet from the tee. If struck to count 1; if struck out of the 12-foot circle to count 2.

(b) INWICKING—One stone being placed on the tee, and another with its inner edge 2 feet 6 inches from the tee, and its fore-edge on a line drawn from the tee at an angle of 45 degrees with the centre line; if the played stone strike the latter on the inside, to count 1; if it perceptibly moves both stones, to count 2.

(c) DRAWING—If the stone played lies within or on the 12-foot circle, to count 1; if within or on the 8-foot circle to count 2.

(d) GUARDING—A stone, to be guarded, placed with its fore-edge on the tee. If the stone played rests within 6 inches of the central line to count 1; if on the line to count 2.

(e) CHAP AND LIE—If the stone placed on the sweeping score with its inner edge one foot from the tee, be struck out of the 12-foot circle, and the played stone rests within or on the same circle, to count 1; if struck out of the 12-foot circle, and the played stone rests within or on the 8-foot circle, to count 2.

(f) WICK AND CURL IN—A stone being placed with its inner edge 6 feet distant from the tee, and its fore-edge on a line making an angle of 45 degrees with the central line; if the stone is struck and the played stone curls on or within the 12-foot circle, to count 1; if struck and played stone rests on or within the 8-foot circle, to count 2.

(g) RAISING—A stone played with its centre on the central line and its inner edge 8 feet distant from the tee; if struck within or on the 12-foot circle, to count 1; if struck within or on the 8-foot circle to count 2.

(h) DRAWING THROUGH A PORT—One stone to be placed with its inner edge on the central line, 10 feet in front of the tee, and another stone placed parallel thereto, and with its inner edge 2 feet from the central line; if the played stone passes between these two stones without touching either, and rests within or on the 12-foot circle, to count 1; if within or on the 8-foot circle to count 2.

(i) CHIPPING THE WINNER—A stone being placed on the tee and another 10 feet distant, and with its inner edge just touching the central line, and half guarding the one on the tee, and a third stone being placed 4 feet behind the tee, with its inner edge touching the central line, but on the opposite side from that on which the guard is placed; if the played stone strikes the stone placed behind the tee, to count 1; if it strikes the stone on the tee, to count 2.

N.B.—In the event of two or more competitors gaining the same number of shots, they shall play four shots at "WICK AND CURL IN."

7. If the competition cannot be decided by these shots, the umpire shall order one or more points to be played again by the competitors who are equal.

8. In the Point Game, the Rinks may be swept as often as required during the intervals between the playing of the stones. A player may sweep his own stone, no other person being allowed to do so, and no person shall be allowed to direct the player, except to hold the broom as the player directs.

NOTE—It will save much time if, in playing for local prizes, two rinks be prepared lying parallel to each other, the tee of one being at the reverse end of the other rink. Every competitor plays both stones up the one rink and immediately afterwards down the other; finishing thus, at one round, all his chances at that point.

It will also save much time if a code of signals be arranged between the marker and the player, such as: The marker to raise one hand when one is scored, and both hands when two are scored. In the case of a miss, both hands are to be kept down.

*Deceased

JAMES ANDREW
Morden Club
Elected Honorary Life Member

James Andrew started curling in Portage la Prairie in 1879, back in the early days, with Senator Watson, his brother John Watson, Wm. Sparling and Ike Thompson. Mr. Andrew accompanied Wm. McCowan and played in the bonspiel at Winnipeg before the present association was formed, and with very few exceptions has been a regular visitor ever since. He has been a member of the Morden Club for the past forty years and is still able to throw a rock with the ease and dexterity of a young man.

DR. R. A. HARVIE
Granite Club, Winnipeg
Elected Honorary Life Member

Dr. Harvie did his first curling at the Granite Club when the rink was located on Albert Street, and has been a member of that club ever since. The doctor was one of the most enthusiastic curlers of the past generation and is one of the most esteemed of the old guard.

I. W. THOMPSON
Portage Club
Elected Honorary Life Member

Ike Thompson started curling on Sawmill Willie's mill pond sixty-one years ago, using wooden blocks roughly shaped by axe and draw knife, with crotch of limb for handles. Later he used blocks turned on a lathe, with iron handles. Played at the Maple Leaf Curling Club until the spring of 1881, and since then has been a member of the Portage Club at Portage la Prairie. Played in Winnipeg bonspiel in 1882 in a canvas covered rink on site where Grain Exchange now stands. Has taken part in many bonspiels since and has won a goodly number of trophies.
